

Membership Fee Increase

After keeping membership fees at the same level for the last four years it is with great regret that we are increasing our membership fee by 50p a week from next term.

In the last committee meeting we discussed the club finances in great detail and concluded that we cannot keep membership fees unchanged as expenses such as pool fees have increased year on year. At the AGM we discussed a number of options and concluded that fees had to increase enough to cover pool fees, this has meant a term increase to £45. The discount that has been previously offered has been replaced with a penalty of £5 if membership fees are not paid in the first two weeks of term.
